REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In combination with all the limitations recited in the independent claim, all the prior arts do not show a contact comprising a polymer (or dielectric material) core having a conductive coating on at least a portion of the core. Claims 1 and 95 recite that the core protrudes from a semiconductor device component in a generally transverse orientation to a plane of the semiconductor device component. Claim 116 recites that the core is secured to and protruded from a contact pad of the semiconductor device component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
